Centre for Business Laws

The Govt. Law College Thrissur is home to the Centre for Business Laws, which provides a robust, interdisciplinary and empirical research environment for research and scholarship in Business Law, Finance Policy, Intellectual Property Protection etc. focusing on domestic, international and comparative law perspectives. The Centre offers outstanding educational programs in Business Law for graduate and undergraduate law students which will enhance the quality of learning experience by understanding more on contemporary business law issues. The goal is to become a focal meeting place to augment the intellectual exchange among the business law community, including scholars, judges, financiers, business leaders, legal practitioners, government policy-makers and members of the community. Thus a forum is provided where challenging ideas are engaged in an honest and open debate to advance the development of business law policy appropriate for a leading market economy. Previously various academic programmes including national workshops, national seminars and short term executive programmes, lectures and classes on various topics relating to Business and Commercial Law have been organized. This year the Centre intends to conduct and organize lecture series/basic course to make the students more aware on Business Laws and Academic Workshops/ Seminars on Goods and Services Tax, Corporate Social Responsibility, E- Commerce and Commercial Arbitration.

We request your presence and welcome you all to participate actively in the event.
