INVITATION

Dear Sir/ Madam,

Law is a powerful instrument of social engineering and it has to discharge a number of social functions. The legal education should be able to meet ever growing demands of the society and should be thoroughly equipped to cater to the complexities of the different solutions. It is in this context that the law colleges play a constructive role. In every society we find complexity in the action of the individuals and conflicting interests. This is because the needs and wants of humans are infinite, but the resources to fulfill those demands are limited and exhaustible. Therefore, in order to achieve and maintaining optimum utilization of resources by providing maximum satisfaction to maximum people and by creating minimum friction, law comes in the picture. It is in this context that the academic communities play a constructive role.

Keeping the same in view it is a great pleasure to announce the inauguration of the Academic activities of Dr. A.T. Markose Chair on Advanced Legal Studies (ATMC) at the Government Law College, Thrissur, This Chair is named as an admiration and tribute to Dr. A.T. Markose a legend in Law teaching, Legal research and Legal Publications. His name is written in golden letters in the history of Law Education in the State. This Chair is focusing on establishing higher efficiency academic input and output in the learning, research and dissemination of legal science and jurisprudence.
